

Our Training

The UH Six Sigma program offers training at several different levels so that your organization can implement the Six Sigma methodology in a manner that is most appropriate to your current needs and resources.

At the basic level we offer an Overview course with the fundamentals of the Six Sigma approach.

For those wishing to gain the expertise to begin implementing Six Sigma in their organization, we offer the Certificate Program and the Green Belt Training Program.

For those wishing to become experts in the Six Sigma approach, we offer the Black Belt Training Program.

Please feel free to contact us for any specialized training needs.
